Integrating a 'story-creating' App with World Languages- – Señora Lowe

Materials needed:

- A mobile device with camera enabled.
- A foreign language keyboard enabled

For this project students will be working in groups of no more than 3.

Objetives:

Students will be able to:

Create a sentence in Spanish using adjectives to describe people and things. Students will include a descriptive picture to demonstrate the verb being used using your App of choice (Scribble Press, Pixie, bookAbi, ect.)

Students will construct a story book using a variety of verbs, adjectives, and pictures.

Evaluation:

CATEGORY	4	3	2	1
Mechanics of Language	Mechanics of Language were correct (for the dialect chosen) and contributed to the images.	Mechanics of Language were typically correct (for the dialect chosen) and errors did not detract from the images.	Mechanics of Language were typically correct but errors detracted from the images.	Repeated errors in Mechanics of Language distracted greatly from the images.
Images	Images create a distinct atmosphere or tone that matches the sentence. The images did communicate the meaning of the sentence.	Images create an atmosphere or tone that matches some parts of the sentence. The images may communicate the meaning of the sentence.	An attempt was made to use images to create meaning of the sentence.	Little or no attempt to use images to relate to the sentence.
